Part number: 040-618

RCD version

Part number: 040-619

The Weathersocket™ is made from GRP - NOT plastic. This ensures its durability and strength, and gives it its Weatherproof name (25+ years in the sun). The Weathersocket comes with Interchangeable threaded inserts - M20 and M25 (No drilling needed). External mounting points ensure the IP level is maintained. Padlockable for extra security.

OPTION 1: BACK ENTRY

OPTION 2: TOP AND BOTTOM ENTRY

01

Bring your cables through one of the entry points shown.

Mounting holes

02

Connect your socket

03

Place the lid back in place and secure using M4 captive screws provided
